

## Assessment Findings

### Finding per Measure

#### Hawaii Pacific University ILOs with PLOs (Copy 1)

##### Critical Thinking

Students will identify and explain issues, analyze evidence, assess assumptions, define their own perspectives and positions, and present the implications and consequences of their conclusions.

##### Outcome: Safety

Evaluate effectiveness of strategies used to reduce the risk of harm to patients, self, and others in healthcare, home, and community settings.

##### ▼ Measure: RN Comprehensive Predictor *Program level Direct - Exam*

##### Details/Description:

The ATI RN Comprehensive Predictor is a comprehensive exam that provides a numeric indication of the likelihood of passing the NCLEX-RN at the student's current level of readiness. The exam covers all content areas of nursing that is expected in a BSN program and is mapped to the NCLEX test plan. The scores are compared to students nationwide who take the same exam which enables student achievement comparisons.

The area of safety assesses the incorporation of preventative safety measures in the provision of client care that provides for the health and well-being of clients, significant others, and members of the health care team.

##### Acceptable Target:

65.3% = 80% prediction of passing NCLEX

##### Ideal Target:

71% = 91% prediction of passing NCLEX

##### Implementation Plan (timeline):

Final semester of nursing program in NUR 4950

##### Key/Responsible

Nursing Faculty

Personnel:

Findings for RN Comprehensive Predictor

Summary of Findings:	<p>Individual Program Mean = 67.2% with an adjusted group score of 73% Individual National Mean = 67.9%</p> <p>83% of student scored above the program target 72% of students scored above ideal target</p> <p>Safety was measured through 18 question items. The group score was 74.8% which equals 96%-97% chance of passing this content information on the NCLEX-RN. The National Group Mean was 64.5% and our Program Group Mean was 64.4%.</p> <p>Safety and Infection Control on the ATI Comprehensive Predictor Exam incorporates preventative safety measures in the provision of client care that provides for the health and well-being of clients, significant others, and members of the healthcare team.</p> <p>Specific Questions (N) were asked on the following topics with relative score (% correct) Accident/Error/Injury Prevention N=8; 74.8% Emergency Response Plan N=1; 96.3% Home Safety N=2; 86.1% Reporting of Incident/Event/Irregular Occurrence/Variance N=2; 95.4% Safe Use of Equipment N=1; 87% Standard Precautions/Transmission-Based Precautions/Surgical Asepsis N=3; 71/6% Use of Restraints/Safety Devices N=1; 46.3%</p>
Results :	<p>Acceptable Target Achievement: Met; Ideal Target Achievement : Approaching</p>
Recommendations:	<p>Recommendations to continue to educate</p>

the BSN students on safety and increase focus on the area of restraints, accident/error/injury prevention, and standard precautions/transmission-based precautions/surgical asepsis.
