

## HPU STUDENT STORAGE SUMMER 2023

The end of Spring semester is quickly approaching and if you have a need to store your personal effects over the summer, we can assist.

Should pickup or delivery services be needed, it is strongly recommended that you team up with other students for this service and split the cost between yourselves.

The pickup/delivery services we are offering is for curbside only in order to keep costs more affordable. Call our office at 808 832 4000 to schedule a pickup/delivery date and the names of the students (we recommend to schedule pickup/delivery service at least four weeks of the desired date as our schedule fills up quickly during the summer months). Our driver will meet you at the dormitory location, create an inventory of what he receives from you and load the items into our storage vaults (large wooden crates). Your items will need to be packed in cartons by yourself. Packing materials are available for purchase and we offer a 50% discount on used packing materials in good, clean condition (limited supply). Your items will be loaded with items belonging to other students so please clearly write your name on the items.
