- Online and on-campus courses
- 36 credits
- AY20-21 tuition \$699 per credit
- 30% tuition discount for our partners
- Also available: Graduate TESOL Certificate (18 credits)

This program prepares students to teach English to immigrants and international students in the United States and to learners of English in other countries around the world. Students gain knowledge about English language structure and functions, second language learning processes, effective teaching methodologies, and current educational technologies. They develop pedagogical skills through classroom observations, hands-on projects, and supervised teaching practice. In addition to teaching English, program graduates pursue careers in related fields such as student advising, program administration, linguistics, and teaching other languages.
